

Petra High Performance Lube & Manual Transmission Supplement

PN 5004 (4.5oz) Specification Sheet

Product Description:

Petra High Performance Lube & Manual Transmission Supplement is specially formulated to quiet gear and bearing noises, reduce friction and wear, and prevent corrosion. This product improves the performance for all applications when GL-5 differential gear lubricants are recommended. Ideal for use in manual transmission, manual transaxle assemblies, differentials and other components where the vehicle manufacturer recommends the use of GL-5 extreme pressure gear oils.

Features:

- Quiet Gear and Bearing Noises
- Reduce Friction and Wear
- Prevent Corrosion
