

PetraFlate Nitrogen Caps with Roadside and Road Hazard Warranty

PN 9PFCAPS1 Specification Sheet

Product Description:

PetraFlate is a high purity nitrogen gas. The magic is in its simplicity. PetraFlate has been cleaned and stripped of all contaminants, particulates, oil, water, and oxygen leaving an inflation medium that is pure and stays put.

PetraFlate is approved by all major tire and vehicle manufacturers and is used in aircraft and race cars worldwide.

Advantages & Uses:

- Improve fuel economy by 10%
- Can increase the life of tires by 50%
- Reduce the likelihood of tire failure by as much as 75%
- Reduction in your carbon footprint
- Improved handling
- Enhanced safety
- 1 year roadside assistance
- 1 year road hazard coverage

Features:

PetraFlate with its large molecular structure won't seep through your tires like regular air and its inert qualities prevent oxidation and reduce wear. Properly inflated, oxygen free tires last longer and provide better fuel economy. Includes one year roadside assistance and road hazard warranty.
