

# Petra ICE<sup>32</sup> Auto A/C Treatment - Liquid

PN 9023 (1.5oz) Specification Sheet

## Product Description:

Petra ICE<sup>32</sup>® Liquid High Performance Automotive R-134a A/C Additive is compatible with all common automotive air conditioning lubricants such as PAGs and POEs and with R-134a and other HFC systems. Petra ICE<sup>32</sup> is also compatible with all elastomer types commonly used in MAC systems and complies with the SAE J2760 compatibility standard. It is biodegradable and does not contain chlorinated or sulphonated chemistry.

## Advantages & Uses:

- For R-134a systems
- Compatible with NEW Refrigerant - R-152a
- Compatible with all mobile A/C system lubricants and materials

## Features:

- Creates film that seeks out and adheres to metal surfaces.
- Polarized & modified molecules power through A/C system providing better flow & improved cooling performance.
- Extends A/C system life
- Prevents sludge – keeping compressor clean
- Eliminates moisture & acid
- Cuts humidity – drier air improves cabin comfort
- Contains UV dye for finding leaks
- 1.5 oz. liquid
